

## ARIZONA STATE UNIVERSITY—EMPLOYEE FLU CONSENT 2020

I have read or have had explained to me the information about the influenza (flu) vaccine. I have had a chance to ask questions which were answered to my satisfaction. I understand that I should not receive the vaccine if I: **(1) have ever had a serious allergic reaction to eggs or to the vaccine; (2) have a fever, acute respiratory or other active infection or illness; (3) have a history of Guillain-Barre Syndrome (a severe, paralytic illness).**

The 2020–2021 Quadrivalent vaccine virus strains are: A/Guangdong-Maonan/SWL1536/2019 (H1N1) pdm09-like virus; an A/HongKong/2671/2019 (H3N2)-like virus; a B/Washington/02/2019- like virus (B/Victoria lineage); a B/Phuket/3073/2013-like virus (B/Yamagata lineage).

The flu vaccine cannot cause the flu because it uses dead viruses. As with any vaccine, flu vaccine may not protect 100% of all susceptible individuals. Most people have no side effects from receiving the flu shot. Serious side effects, such as severe allergic reactions, have rarely been reported for the flu vaccine. I understand the benefits and risks of the vaccine and request that the vaccine be given to me or to the person named below for whom I am authorized to make this request. Healthwaves practices in accordance with the HIPAA regulations as it pertains to privacy practices and patient confidentiality regarding protected health information.
